The baseball game between the N. F. A. boys and St. Joseph's Sedality time started at 3 o'clock Wednesday afternoon on the Academy campas in a brisk April shower, and went not quite an inning before the curtain was rung down by Coach Leenard. Byles appeared for the first time on the slab for the Academy boys. Boyd at third was also a new man on the N. F. A. lineup. On account of an injured angle Capt. Bob Fietcher was not on hand, his place at first being occupied by Croker. The Sodality team failed to get a man around the circuit, Byles striking out Simcox and Louden. In the second half of the inning, Standish drew a base on balls, Murray landed for a single and both advanced on a wild pitch by Simcox. Standish scored on Croker's fly to center and the game was called.

Ranges

The Single Damper is a simple and unassuming name for a wonderful invention; probably the most important improvement ever made in cooking stoves. It is operated by one movement of a knob upon the top at the back of the range. This knob has three plainly marked locations, "Kindle," "Bake" and "Check." Slide the knob to the proper point and the range does the rest. Simplicity itself and absolutely sure.

This Single Damper requires but one movement, yet that one movement regulates the fire and also the oven heat and does it better

than can be done with two dampers; damper mistakes are impossible. All other stoves than the Crawford have two dampers and some have more, but the twodamper ranges are confusing. You never know when the dampers are exactly right.

The Ash Hod instead of the clumsy ash pan is another Crawford trouble saver-
